

# NAKAVERSE

## Production Lands

Made by Cryptodoi

### Raw Mineral Lands

Copper / Coal / Petrol / Gem / Wood / Iron

builds NFT building to start mining

### Mining Factory\*

### ELECTRIC POWER

improves building efficiency

### Raw Minerals

Each factory can run without electricity, however at a much slower pace than ones that use electricity.

NFT buildings will have a yield level to them. The higher the level, the higher the yield. The rate will depreciate with times of use.

The higher the depreciation, the lower yield the building will produce. Owners can perform building maintenance to stop depreciation.

#### \*List of NFT Buildings for Mining Factory

- Copper Mining Plant - **Copper Mine**
- Coal Mining Plant - **Coal Mine**
- Oil Refinery - **Petroleum**
- Lapidary Factory - **Gem Quarry**
- Sawmill - **Woodland**
- Iron Mining Plant - **Iron Mine**

### Production Lands

#### Sundust

Production Boost

#### Urban

Production Boost

#### Evergreen

Production Boost

### Energy Farm

Electricity plant to create **ELECTRIC POWER** to boost factory efficiency

### Food Farm

Factory for creating food to replenish **STAMINA**

### Items Factory

Factory for all in-game and nakaverse assets

refines minerals

### In-Game Items

Items used in playing games inside the Nakamoto Games Gaming Portal

### NAKAVERSE Items

Items that will be used inside NAKAVERSE that can be used by different occupations (next phase)

### NAKAVERSE USERS

### STAMINA

Each player will have a set amount of stamina that is available to them to do activities inside the NAKAVERSE. Every activity will consume stamina and the productivity of the user will decrease if stamina = 0.

The stamina will slowly replenish by itself if the user doesn't do any activity or they can choose to eat food to replenish the stamina quicker and perform more activities.

The higher the stamina, the better performance the user has which in turn will yield better resources from the activities they participate in. Users can achieve higher stamina with higher experience levels that can be achieved by playing games in the Nakamoto Games gaming portal.
